

Stonehaven Medical's Balance 2 Section Sienna Model BAL1050 treatment table is designed for the more economically conscious budget, while retaining all the superior benefits and features of our hi/low tables. Built with a heavy duty metal steel frame and high quality actuators, the Sienna 2 Section has a weight capacity of 500 lbs (227 kgs). Standard features include elongated breathing hole with double sided cushioned face plug. It is designed with a patient lift accessibility frame for maximizing the ease of patient transfer and is ADA Compliant, with a minimum height of 18" (45 cm) and a maximum height of 36" (91 cm). Hands free, foot operated up/down levers adjust the table's height. Cushions feature 2" foam with a choice of seven attractive upholstery colors to compliment any decor.
